Professional Summary

Motivated fullstack developer with a desire in continuous learning and problem solving. Experienced in working across frontend and backend, contributing to real world projects, improving existing systems, and developing accessible UI. Known for quickly adapting to new technologies, taking on tasks, and setting clear goals to move projects forward. Comfortable collaborating with and guiding coworkers when needed, with early experience in leadership and mentoring within a professional development environment.

Education

IES Hermanos Machado - Multiplatform Application Development

IES Sineu - IT Systems and Networks

Professional Experience

Full-stack Lead Developer and Mentor

Fibwi

Mar 2025 – Mar 2026

- Contributed to and oversaw multiple projects using full-stack expertise across backend and frontend.
- Rapidly learned and integrated new tools, frameworks, and programming languages as needed.
- Re-designed legacy websites by adding new features and delivering a more accessible UI within 1 month.
- Defined UI/UX guidelines that shaped the website's user experience and interaction flow.
- Trained a new trainee from the ground up, accelerating their onboarding and helping them become productive quickly.
